Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), a computer-based printing system comprising a virtual printer driver supported by the printing system and called by means for initiating the print job, wherein the virtual printer driver determines and selects which of the output devices to send at least a portion of the print job for rendering, the determination based upon a best fit analysis between the output devices and one or more options and requirements of the print job, without manual enumeration of each of the output devices; and a print control assembly in communication with the computer device, the print control assembly capable of storing, processing and directing a set of printing instructions as received from the virtual printer driver by the virtual printer driver switching a device context to corresponding printer drivers of said selected output devices an application or background process writing the printing instructions to the corresponding printer drivers, which spool the print data to a spooler that despools the print data to a port manager or a print processor as claimed in claim 1. Similar features are claimed in claims 28, 46, and 47. Therefore, claims 28, 46, and 47 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
